

module48

BP

synaptic signaling
trans-synaptic signaling
chemical synaptic transmission
anterograde trans-synaptic signaling
cell-cell signaling
modulation of chemical synaptic transmission
regulation of trans-synaptic signaling
signal release from synapse
neurotransmitter secretion
signal release
neuron projection development
synaptic vesicle exocytosis
neuron differentiation
regulation of biological quality
secretion by cell
regulation of synaptic plasticity
neuron development
generation of neurons
neurotransmitter transport
neuron projection morphogenesis

MF

voltage-gated monoatomic ion channel activity
voltage-gated channel activity
voltage-gated monoatomic cation channel activity
monoatomic cation channel activity
gated channel activity
voltage-gated calcium channel activity
metal ion transmembrane transporter activity
passive transmembrane transporter activity
channel activity
monoatomic ion channel activity
high voltage-gated calcium channel activity
transmembrane transporter activity
calcium channel activity
calcium-dependent phospholipid binding
monoatomic cation transmembrane transporter activity
voltage-gated potassium channel activity
transporter activity
molecular function regulator activity
calcium ion transmembrane transporter activity
GTPase regulator activity
